INTRODUCTION

While New Mexico was still a territory, 23 years before it was to become the 47th state of the United States, the settlers of the Mesilla Valley recognized the need for an advanced educational system. This recognition, and the energetic efforts of leading citizens, resulted in the founding of the Las Cruces College in 1888. The territorial legislature of 1889 established the land-grant agricultural college and experiment station which officially opened on January 21, 1890. During its first full academic year, the college became known as the New Mexico College of Agriculture and Mechanic Arts, the first degree-granting institution in the territory. In 1960, the growth and maturity of the college were formally recognized when the New Mexico Constitution was amended to change the name of the institution to New Mexico State University. Since 1963, the institution has held continuous accreditation status, at the doctoral level, by the North Central Association of Colleges and Schools. New Mexico State University, under the provisions of the Morrill Act of 1862 and subsequent federal legislation, continues to provide a liberal and practical education for students and to sustain programs of research, extension education, and public service. New Mexico State University is classified as a Carnegie Doctoral/Research Universities-Extensive and is a member of the Hispanic Association of Colleges and Universities (HACU).

New Mexico State University is the land grant university of the state of New Mexico. As a thriving center of higher education, deeply rooted in the southwestern tradition, its role as a comprehensive university is recognized throughout the state. New Mexico State University offers a wide variety of programs through the Graduate School and the colleges: Agriculture and Home Economics, Arts and Sciences, Business, Education, Engineering, Extended Learning and Health and Social Services. The 22 doctoral programs are limited primarily to agriculture, education, engineering, and the sciences; the specialist in education degree is offered in 2 study areas; there are 50 master's degree programs and 77 baccalaureate degree programs. At its four branch community colleges, Alamogordo, Carlsbad, Doña Ana and Grants, New Mexico State University offers academic, vocational/technical, and continuing education programs. In accord with its land-grant mission, New Mexico State University provides informal, off-campus educational programs through the Cooperative Extension Service. Through a statewide network of 9 research facilities, the Agricultural Experiment Station conducts basic and applied research supporting agriculture, natural resources management, environmental quality, and improved quality of life.

Overall responsibility for the university resides in an autonomous Board of Regents appointed by the Governor of the State and confirmed by the State Senate. The Board delegates authority for the internal management of the institution to the president. The faculty elects a Faculty Senate which has legislative jurisdiction over policies affecting the academic mission of the university.

Main & Branch Community Colleges Campuses

New Mexico State University consists of a main campus and four branch community college campuses. The main campus and Doña Ana Branch Community College are located in the city of Las Cruces; the Alamogordo Branch Community College is located in the city of Alamogordo, which lies in the foothills at the base of the Sacramento Mountains; the Carlsbad Branch Community College is located in the southeastern corner of the state in the city of Carlsbad; and the Grants Branch Community College is located in the city of Grants in the northwestern corner of the state. In addition, the main campus provides courses and academic programs via distance education technologies.

New Mexico State University

Board of Regents

Steve Anaya, Appointed Regent from Albuquerque for term expiring January 1, 2009

Laura M. Coniff, Appointed Regent from Las Cruces for term expiring January 2007

Bob Gallagher, Appointed Regent from Santa Fe for term expiring January 1, 2009

Steve W. Lewis, Appointed Regent from Artesia for term expiring January 1, 2011

Sherry Kamali, Appointed Regent from Las Cruces for term expiring January 1, 2007 (Student Regent)

Ex Officio Members

Bill Richardson, Governor of New Mexico, Ex Officio Regent from Santa Fe

Beverlee J. McClure, New Mexico Secretary of Higher Education, Ex Officio Regent from Santa Fe

Larry S. Creider, Chair, Faculty Senate

Jennifer A. Burn, President, Associated Students of NMSU

Administration

President	Michael Martin
Provost	William Flores
Business and Finance, Vice President	James L. McDonough
Distance Education and Extended Learning, Vice Provost	Carmen Gonzales
Human and Physical Resources, Vice President	Benjamin Woods
Information and Technological Services/Chief Information Officer, Vice Provost	Michael Hites
International Programs, Vice Provost	Everett Egginton
Research, Vice Provost (Interim)	Donald Birx
Student Services and Dean of Students, Vice President	Gladys De Necochea
University Advancement, Vice President	Rebecca Dukes

Strategic Directions Summary*

Mission Statement

New Mexico State University is the state's land-grant university, serving the educational needs of New Mexico's diverse population through comprehensive programs of education, research, extension education, and public service.

Mission-Oriented Goals

- Enhance NMSU's undergraduate experience and maintain NMSU as the university of choice for New Mexico residents.
- Continue NMSU's high-quality graduate and research programs.
- Expand the capacity and delivery of extension education, other outreach programs, and service in keeping with NMSU's land-grant mission.

Mission-Supporting Goals

- Attract, develop, reward, and retain a high-quality faculty and staff.
- Provide opportunities for faculty and staff to enhance their knowledge and skills in working with an increasingly diverse university community.
- Increase the diversity of NMSU's faculty and staff with the goal of having NMSU's employee profile represent the appropriate market pool in terms of race/ethnicity, gender, and people with disabilities.
- Encourage the enrollment at NMSU of a diverse student body in terms of race/ethnicity, gender and students with disabilities, at both the undergraduate and graduate levels.
- Maintain and expand the critical information resources and student services of the university. Maintain up-to-date scholarly information and library services, consistent with Carnegie Doctoral/Research Universities-Extensive, to enhance education, research, and service.
- Plan, develop, manage, and maintain the physical infrastructure of the university.
- Utilize financial resources effectively and efficiently.
- Strengthen understanding of NMSU so that the public makes full use of the university's expertise and resources.

New Mexico Higher Education Department
(Formerly Known as the Commission on Higher Education for the State of New Mexico)

A new cabinet-level Higher Education Department (HED) was created in 2005 and will report directly to the Governor, thus elevating the importance of higher education in the state and allowing the Cabinet Secretary to have a more direct impact on policy. The HED will be responsible for a statewide agenda for higher education: increasing access to our colleges and universities and coordinating efforts to build a highly trained workforce and high-wage economy, thus expanding opportunities for all New Mexicans.

New Mexico State University's Peer Institutions*

In Region:

Colorado State University – Fort Collins
Iowa State University – Ames
Kansas State University – Manhattan
Louisiana State University – Baton Rouge
Oklahoma State University – Stillwater
Oregon State University – Corvallis
Texas A & M University – College Station
University of Arizona – Tucson
University of Arkansas – Fayetteville
University of Missouri – Columbia
University of Wyoming – Laramie
Utah State University – Logan
Washington State University – Pullman

Out of Region:

Clemson University – Clemson, South Carolina
University of Tennessee – Knoxville
Virginia Polytechnic Institute & State University – Blacksburg

* The peer institutions were selected by the Commission on Higher Education in 1990.

New Mexico State University

College of Agriculture and Home Economics

In 1889, the territorial legislature authorized the New Mexico Agricultural College and Agricultural Experiment Station at Las Cruces. Today, the dean and chief administrative officer assumes the overall leadership of the three interrelated components of the college: academic programs, Agricultural Experiment Station, and the Cooperative Extension Service. Academic programs included instructional activities in eight academic departments. The Agricultural Experiment Station funds many of the research projects carried out in the academic and nonacademic departments, as well as the Agricultural Science Centers throughout the state. Faculty and staff of the Cooperative Extension Service primarily teach informal, out-of-the-classroom educational programs in agriculture, home economics, community development, and 4-H and youth development throughout the state. Additional departments in the college are Agricultural Communications and the Indian Resource Development Program.

College of Arts & Sciences

The College of Arts and Sciences traces its origin to 1917 when it was known as the School of General Science. The present College of Arts and Sciences is comprised of 23 academic departments, the College Advising Center and the Research Center. Administered by the dean and two associate deans, the college provides programs of research and creative endeavors in the arts, humanities, sciences, and social sciences.

New Mexico State University

College of Business

The College of Business was created in 1964. The dean of the college assumes leadership of five academic departments and the Bureau for Business Research. The college has been predominantly oriented toward teaching at the undergraduate level and, in more recent years, graduate-level programs. The college has developed substantial research for competencies focused upon New Mexico, Mexico and other border economic, business, and social issues; leadership and substitute-for-leadership issues; and issues in public utility regulation.

College of Education

The College of Teacher Education became the College of Education in 1967. The dean and associate deans of the College provide leadership for five academic departments and the Educational Research Center. The undergraduate and graduate programs prepare individuals for licensure to work in public and private schools. The College, as a whole, is accredited by the State Department of Education within New Mexico and the National Council for the Accreditation of Teacher Education.

New Mexico State University

College of Engineering

Engineering education was an early part of the course offerings of the New Mexico College of Agriculture and Mechanic Arts, now known as New Mexico State University. Leadership for the College of Engineering is provided by the dean, associate and assistant deans, and director of the Engineering Research Center. Today, there are seven academic departments in the college. Research administered by the Engineering Research Center is a vital part of the college's activities. All of the programs in the College of Engineering are accredited by the Accreditation Board for Engineering and Technology (ABET), the nationally recognized engineering accreditation agency.

College of Extended Learning

New Mexico State University is making higher education more accessible to people who may not be able to pursue their education through traditional means because of distance, time constraints, or family and work responsibilities.

The College of Extended Learning provides comprehensive distance learning opportunities to meet diverse educational and professional needs anytime, anywhere. As New Mexico's land-grant institution, NMSU has a university-wide mission to expand the capacity of extension, outreach, and distance education to communities across the state.

The distance education degree programs are designed to serve students who may not be able to pursue an education through traditional means. The College of Extended Learning offers Bachelor degree completion programs, Masters and Doctorate programs, and a number of Certificate and Licensure options.

College of Health & Social Services

The College of Health and Social Services, established in 1979, is administered by the dean and associate dean. The college brings together fields of study that apply directly to the quality of life in a rapidly changing society. In addition to three academic departments, the college has a research center, which provides assistance to the faculty in the conduct of scientific research and professional training. A part of the college's School of Social Work is the Family Preservation Institute, an educational research and training center that engages in activities related to family preservation in multi-cultural settings. The college's Health Science Department is affiliated with the Southern Area Health Education Center (SoAHEC), Border Health Education Training Center (BHETC), Border Health Office (BHO), and the Border Epidemiology and Environmental Health Center (BEC).

Honors College

New Mexico's only honors college was established in the Fall of 2004. The Honors College provides motivated undergraduate students with opportunities to enrich their academic programs. Small classes taught by master teachers engage Honors students in lively discussions and collaborative investigations of interdisciplinary topics. The Honors College does not offer a degree, but supplements the degrees offered by the university's six academic colleges by awarding various levels of honors distinction – core honors, university honors and distinction in university honors – to students who complete the prescribed honors track.

Graduate School

Although the first master's degree was awarded in 1897, the Graduate School was not formally established until 1956. The Graduate School offers 22 doctoral programs; 2 study areas for the education specialist degree; and 50 master's degree programs. The dean and associate dean provide the leadership for the Graduate School. Graduate faculty involvement in generation of academic policy and operating procedure is achieved primarily through the Graduate Council.

Graduate Degrees

Master of Accountancy	Master of Science in Chemical Engineering
Master of Agriculture	Master of Science in Civil Engineering
Master of Applied Geography	Master of Science in Electrical Engineering
Master of Arts	Master of Science in Environmental Engineering
Masters of Arts in Teaching	Master of Science in Industrial Engineering

Majors & Degrees Offered

College of Agriculture and Home Economics

Agricultural Biology	B.S. in Agriculture, M.S.
Agricultural Economics & Agricultural Business	B.S. in Agriculture
Agricultural & Extension Education	B.S. in Agriculture, M.A.
Agronomy	B.S. in Agriculture, M.S., Ph.D.
Animal Science	B.S. in Agriculture, M.S., Ph.D.
Clothing, Textiles & Fashion Merchandising	B.S. in Family & Consumer Sciences
Conservation Ecology	Bachelor of Conservation Ecology
Environmental Science	B.S. in Environmental Sciences
Family & Child Science	B.S. in Family & Consumer Sciences
Family & Consumer Sciences	M.S.
Family & Consumer Sciences Education	B.S. in Family & Consumer Sciences
General Agriculture	B.S. in Agriculture, Master of Agriculture
Horticulture	B.S. in Agriculture, M.S.
Hotel, Restaurant & Tourism Management	B.S. in Hotel, Restaurant & Tourism Management
Human Nutrition & Food Science	B.S. in Family & Consumer Sciences
Range Science	M.S., Ph.D.
Rangeland Resources	B.S. in Agriculture
Soil Science	B.S. in Agriculture
Wildlife Science	B.S. in Agriculture, M.S.

College of Arts and Sciences

Anthropology	B.A., M.A.
Art	B.A., M.A.
Astronomy	M.S., Ph.D.
Biochemistry	B.S.
Biology	B.A., B.S., M.S., Ph.D.
Chemistry	B.A., B.S., M.S., Ph.D.
City & Regional Planning	B.S.
Communication Studies	B.A., M.A.
Computer Science	B.S., M.S., Ph.D.
Creative Writing	M.F.A. in Creative Writing
Criminal Justice	Associate in Criminal Justice, Bachelor in Criminal Justice, Master in Criminal Justice
Economics	B.A.
English	B.A., M.A.
Foreign Languages	B.A.
Geography	B.S., Master of Applied Geography
Geology	B.S., M.S.
Government	B.A., M.A.
History	B.A., M.A.
Journalism & Mass Communications	B.A.
Mathematics	B.S., M.S., Ph.D.
Microbiology	B.S.

New Mexico State University

Majors & Degrees Offered (continued)

College of Arts and Sciences, continued

Music	B.M., M.M.
Music Education	B.M.E.
Philosophy	B.A.
Physics	B.A., B.S., M.S., Ph.D.
Psychology	B.A., M.A., Ph.D.
Public Administration	M.P.A.
Rhetoric & Professional Communications	Ph.D.
Sociology	B.A., M.A.
Spanish	M.A.
Studio Art	B.F.A., M.F.A.
Theatre Arts	B.A.
Women's Studies	B.A.

College of Business

Accounting	Bachelor of Accountancy, Master of Accountancy
Business Administration	M.B.A., Ph.D.
Business Computer Systems	B.B.A.
Economics	B.A. in Economics, B.B.A., M.A.
Experimental Statistics	M.S.
Finance	B.B.A.
General Business	B.B.A.
International Business	B.B.A.
Management	B.B.A.
Marketing	B.B.A.
Pre-Business Administration	Associate in Pre-Business

College of Education

Athletic Training Education	B.S. in Athletic Training Education
Communication Disorders	B.S. in Education
Counseling & Guidance	M.A.
Counseling Psychology	Ph.D.
Curriculum & Instruction	Ed. Sp., Ed.D., Ph.D.
Dance	B.A. in Dance
Early Childhood Education	B.S. in Education
Education	M.A.
Educational Administration	M.A., Ed. Sp., Ed.D., Ph.D.
Elementary Education	B.S. in Education
Kinesiology	B.S. in Kinesiology
Master of Arts in Teaching	M.A.T.
School Psychology	Ed. Sp.
Secondary Education	B.S. in Education
Special Education	B.S. in Education

New Mexico State University

Majors & Degrees Offered (continued)

College of Engineering

Aerospace Engineering	B.S. in Aerospace Engineering
Chemical Engineering	B.S. in Chemical Engineering, M.S. in Chemical Engineering
Civil Engineering	B.S. in Civil Engineering, M.S. in Civil Engineering
Electrical Engineering	B.S. in Electrical Engineering, M.S. in Electrical Engineering
Engineering, General	Ph.D. (Specializations in Chemical, Civil, Electrical, Industrial and Mechanical Engineering)
Engineering Physics	B.S. in Engineering Physics
Engineering Technology	B.S. in Engineering Technology
Environmental Engineering	M.S. in Environmental Engineering
Industrial Engineering	B.S. in Industrial Engineering, M.S. in Industrial Engineering
Information & Communication Technology	Bachelor of Information & Communication Technology
Mechanical Engineering	B.S. in Mechanical Engineering, M.S. in Mechanical Engineering
Surveying Engineering	B.S. in Surveying Engineering

College of Extended Learning

Applied Science	Bachelor of Applied Science
Individualized Studies	B.I.S.

College of Health & Social Services

Community Health	Bachelor of Community Health, Master of Public Health
Environmental & Occupational Health	B.S. in Environmental & Occupational Health
Human & Community Services	B.S. in Human & Community Services
Nursing	B.S. in Nursing, M.S. in Nursing
Social Work	Bachelor of Social Work, Master of Social Work

Graduate School

Agricultural Economics & Economics (Interdisciplinary)	M.S.
Interdisciplinary Doctorate	Ph.D.
Molecular Biology (Interdisciplinary)	M.S., Ph.D.

New Mexico State University

Budget & Finance

As a public institution, New Mexico State University is funded, in part, through an appropriation by the New Mexico legislature and the governor. The state budget approval process authorizes general fund appropriations as well as overall expenditure levels. General fund appropriations for Instruction and General (I & G) are largely the result of a workload-based funding formula and are made as one lump-sum appropriation to each campus. In addition, line-item appropriations provide partial support for a number of research and public service activities of the university. The state also appropriates funds to New Mexico State University on a project-by-project basis for capital improvements.

New Mexico State University

Research

Since its founding as New Mexico's land-grant college in 1888, New Mexico State University has encouraged and supported creative scholarly activity of its faculty and students. New Mexico State University is among the top 100 colleges and universities in research and development in the nation. Most early research followed mandates of the founding legislation of land-grant colleges by generating knowledge useful in agriculture and engineering. Over time, however, research has expanded from this focus on applied natural sciences to include all disciplines of the university. Today, creative scholarly activity leads to basic scientific discoveries as well as practical applications emanating from the natural and social sciences, arts, humanities, business, and health sciences. This creative activity enriches academic programs for students, provides training and employment opportunities, and attracts externally funded support to enhance university facilities.

In 2005, to increase New Mexico State University's capacity to respond to large, interdisciplinary federal agency programs, the university established five strategic Research Clusters:

- Biosciences
- Information Sciences and Security Systems
- Natural Resources Sustainability and Renewal
- Southwest Border Regions Health, Education, Culture and Development
- 21st Century Space and Aerospace

These clusters are faculty-driven with faculty governance at the Cluster level and oversight by the Vice Provost for Research. The Clusters include faculty and staff from many colleges who have organized themselves, by areas of interest and experience, into thematic subclusters. More information is available at <http://research.nmsu.edu/>.

New Mexico State University

Special Classifications/Rankings

Special Classification:

- **Carnegie – Doctoral/Research Universities – Extensive:**
 - > the top 151 of 3,941 institutions ranked
 - > 50 Ph.D.s awarded annually across at least 15 disciplines
- **Listed as an Hispanic-Serving Institution by the U.S. Department of Education**

Rankings for FY2002*

○ Total R&D expenditures at universities and colleges	108
○ Federally financed R&D expenditures at universities and colleges	98
○ Federally financed R&D expenditures at public institutions	65
○ Total R&D expenditures in engineering at universities and colleges	18
○ Federally financed R&D expenditures in engineering at universities and colleges	13
○ Total R&D expenditures in agricultural sciences at universities and colleges	40
○ Total R&D expenditures in computer sciences at universities and colleges	97
○ Federally financed R&D expenditures in the physical sciences at universities and colleges	64

* Most recent statistics available from the National Science Foundation. 601 institutions were surveyed.

New Mexico State University

Academic Centers and Research Institutes

Agriculture Experiment Station conducts basic and applied research supporting agriculture, natural resources management, environmental quality, and improved quality of life.

Arts and Sciences Research Center assists the faculty of the College of Arts and Sciences in the conduct of their research and in securing outside funding for research activities.

Bureau for Business Research and Services provides business and economic research services to the public and private sectors of the state, region, and country and management services to business organizations and associations, government agencies and the public.

Educational Research Center provides support to the faculty and departments in the College of Education in identifying, procuring, coordinating, and monitoring all external funding. The center also coordinates the college's off-campus program.

Engineering Research Center provides leadership and assistance to College of Engineering faculty and departments actively engaged in research.

Health and Social Services Research Center provides assistance to the faculty and departments in the College of Health and Social Services in the conduct of scientific research and professional training.

Physical Science Laboratory, a nonprofit research and development arm of NMSU, provides a wide variety of research and development services to support defense and space activities around the world.

Water Resources Research Institute's overall mission is to develop and disseminate knowledge that will assist the state and nation in solving water problems.

International & U.S.-Mexico Border Programs

International Programs at New Mexico State University was established in 1972 as the Center for International Programs with the goal of coordinating NMSU's international programs, activities and services. In 2002 the Center was renamed as the Office of Vice Provost for International and U.S.-Mexico Border Programs and known as International Programs. The name change signified two very important concepts, one being the elevation of importance of international activities/programs and the internationalization of NMSU and the second focusing more specifically on the importance of the U.S.-Mexico border. International Programs' mission is to lead NMSU in the development, implementation and evaluation of policies, programs, and services that incorporate an international dimension into the teaching, research, and service functions of the university. Some of the programs and services which International Programs offers are: admission of foreign students; support services for international students including immigration services; foreign scholar (J-1) visa services; community outreach programs; international education programs and services including study abroad; training; technical assistance, and cooperative programs and services; and coordination and development of U.S.-Mexico Border programs.

University Advancement

University Advancement comprises the offices of Alumni Relations, Development, Advancement Services, University Communications and the New Mexico State University Foundation. These departments are the critical link to our alumni, community, state and the world. Details on giving and methods of making a gift can be found via the web at: <http://www.nmsu.edu/advance>

Aggie Alumni are linked around the globe with more than 50 chapters in 16 U.S. states, Yemen, Brazil and Mexico. The International Board of Directors and the Executive Council set goals and policy for the Association. They encourage alums to recruit students, promote active involvement on university boards and committees and foster mentoring/networking opportunities for alums with current and prospective students.

Private philanthropy is the margin of excellence needed to continue the university's unique position as a doctoral research land grant institution. Gifts are requested from alumni, individuals and friends of the university, foundations, corporations and through partnerships with for-profit entities. Givers make their gifts through the New Mexico State University Foundation, a separate, non-profit entity managed by a volunteer board of directors. The overall endowment is in excess of \$100 million dollars. Gifts are made to the Foundation in the form of cash, securities, real estate, tangible personal property, paid up life insurance, bequests, trusts or retirement plans and gifts in kind.

The Advancement Services area maintains the alumni and friends database records. They provide the accounting, receipting and reporting for charitable gifts to the university and the Foundation. As the "institutional memory" for our alumni, this office serves our alumni, colleges and departments on campus and wherever Aggies live and work.

University Communications is responsible for informing people inside and outside the institution about activities that advance NMSU teaching, research and public service. Our efforts are aimed at creating a strong, positive image for New Mexico State University and building the university's reputation. The office produces marketing and recruitment materials, creates print and on-line publications, provides photography services and manages the top levels of the university Web Site. University Communications also provides leadership for university-wide brand identity initiatives and graphic standards.

Branch Community Colleges

Alamogordo Branch Community College

Doña Ana Branch Community College

Carlsbad Branch Community College

Grants Branch Community College

The branch community colleges are designed to help local citizens achieve their personal educational goals and to meet the job training needs of local business, industry, and government. The branch community colleges offer

- freshman and sophomore academic courses with credits that transfer to four-year colleges and universities,
- vocational-technical certificates and associate degree programs that provide students with basic job skills to enter the work force,
- adult basic education and developmental education to help students acquire basic skills in reading, English, and mathematics,
- noncredit community service and continuing programs for students seeking professional or personal enrichment.
