Student Voices...

“I believe a particular strength of my university experience was the quality of education for the price I had to pay for tuition.”

“...I never got any assistance when it came down to what to do after graduating. I still do not know really what to do to get a job as a teacher, or even what to do to get into grad school, two major topics that I feel should be discussed.”

2012-13 Graduating Student Survey

“If I could take all of the courses I needed when I needed them, I could have graduated almost two semesters early.”

“The fact that some of my core classes are only offered during specific semesters, and the capacity of certain classes are very small. Combine these two, and I think most every student in my major has had trouble registering for one class or another.”
